From a Distinguished Physician

mind, one or more or sometimes all yield to the desirancies inflames. The poisson it distributes throughout the system attacks everywisel force, and breaks up the most release of consultations. Ignored because but this understood by most physicians, impotently assected by quacks and charistates, those coffering from it have fittle hope to be refleved of it this side the grave. It is time, then the popular treatment of this terrible disease by remedias within the reach of all passed form hands at once competed and instruction. The new and hitherto nutried method adopted by Dr. Sanford in the preparation of his Hannat Cult has well my heavy approval. I believe it likely to canced when all the neural remedies fail, because it strikes at the root of the cheese, viz., the action food, while it leads the uborated membrane by dured spot cation to the mass passages, its action is based cation to bbe mass) passages. Its action is based on certain fixed roles, and unless the viral forces are too far exhausted, must, in the great unjor-lity of cases, effect a cure. GEO, BEAND, M. D. Nobes 4t Block, Sc. Framingham, Oct. 1, 1874.

M At eachly claim to be more of the few popular remedies receiving the approval of medical gentlemen, who, in private, not only freely recommend it but use at its their fam their in preference to any of the preparations usually pre-

e-ribed by physicians.

"You are aware," said a distinguished city physician, "that my obligations to the Mass. Medical Society are such that I cannot public recommend or prescribe the Badical Cure, but since I project a so much relief from the use of it mixed, after a thorough trial of the usual remoder, I have private y advised its ess, and presume I have out to your attern to less than one hundred of my patients for it.

Universal Satisfaction.

AGRICULTURAL ADVANCMENT. Individual efforts, modest endeavors, small gatherings are more fruitful in results than loudly heralded conventions, or agricultural societies with high sounding names. District schools are a more important element in educating the masses than academies or colleges. Farmer's clubs will produce more good farmers and stimulate the production of more grain and provisions, than national associations or New the, and utterly surpassing all other Plasters England societies. The great flood tide of agricultural prosperity now permeating and revivifying every channel of industry throughout the country, is the problem in an humble and unostentapractical working farmers themselves. We have never failed to note improved methods, increased crops, greater prosperity, higher values for farm property more sociability, and a keener interest unities which were blessed with active,
